Professional Summary

Computer Science graduate skilled in building full-stack web applications using Angular, Node.js, and Spring Boot. Experienced in creating responsive UIs, implementing authentication systems, and developing real-time features.

Technical Skills

JavaScript/TypeScript   Angular   React   Node.js   Express   Spring Boot   PostgreSQL

MongoDB   HTML/CSS   Tailwind CSS   Angular Material   JWT Authentication   WebSockets   Git

Projects

Real Estate Full Stack Website

- Developed using Spring Boot/PostgreSQL backend with Angular/Tailwind frontend
- Implemented property buying/selling with JWT authentication
- Integrated house price prediction model for price estimation
- Created real-time bidding system using WebSockets

E-Commerce Application (Angular)

- Built with Angular and Angular Material using FakeStore API
- Implemented product browsing, search, reviews, and image zoom
- Developed wishlist and cart functionality

Tuition Management System

- Created with Node.js/Express/MongoDB backend
- Developed frontend with HTML/CSS/JavaScript
- Implemented notification system, lecture repository, and notes portal
- Added login/signup functionality

User Dashboard CRUD Application

- Developed Angular dashboard with user management

- Implemented PDF generation using pdfMake
- Created Node.js/Express backend for data storage
- Added login/signup and profile editing features

Experience

Software Developer Intern | National Informatics Centre (NIC)

Nov 2024 - Mar 2025

- Developed front-end components using React
- Integrated RESTful APIs for client-server communication
- Participated in UI improvements and system optimization

Education

B.Tech in Computer Science & Engineering

Graphic Era Hill University

Graduated: 2025
